## MINISTRY UPDATE

### A PERSONAL MESSAGE

What happened to the evolutionist when that meteorite crashed unexpectedly into Chelyabinsk, Russia, February 2013. Did their all-knowing science miss predicting that event? Oh, but they know what happened 500 million years ago! But these same scientists have not even identified 25% of the fish in the Amazon River. How much do they not know that is accessible to their investigation. Mysteries in the evolutionist's back yard remain a mystery, yet millions of years ago, they know how it happened. Culinary researchers don't even know where rice came from in the low country of South Carolina. From the tiny grain of rice to the vast expanses of the Universe, man is feeble and fallible in his knowledge. Thankfully, the Creator has given us His infallible record and His indwelling Holy Spirit to guide His children in all truth. The Voice in the Wilderness is dedicated as a helps ministry to equip God's people to shine

light into a dark place.

Preaching, Teaching, and Reaching have been at the heart of all The Voice in the Wilderness has been doing for decades. To God be the Glory for the great things He hath done. Another edition of *The Voice in the Wilderness* has been completed, mailed, and read by thousands. Thank you for reading and keeping up with this humble ministry. Your friendship, prayers, and support keep us going on with the gospel. Be sure to check online for updates on the Venezuela Missions trip and other year-end projects as well as read *The Voice in the Wilderness* online, listen to audio sermons, watch video sermons, and see other resources.
